

Tasos (aka, Jason) Vlamakis

Tel: +30-6933-35-4411 jasonvlamakis@gmail.com US and Greek EU citizenship

OBJECTIVE

To join a progressive organization where I will be able to utilize and expand my knowledge and experience and help the firm meet its business goals.

October 2012 to date

OXYtech Labs, Owner
We can elaborate upon the interview, too much to list

EXPERIENCE

Mobiak S.A. · www.mobiak.gr · Exclusive Linde Medical & Industrial Gases Agent · Greece, Europe

January 2011 to Sept. 2012

Senior facilities technician, Mobiak S.A.
Maintain all types of electromechanical assemblies of filling plant. Responsible for 24 hour emergency technical support should it become necessary. In addition develop from scratch security systems electronically controlled access to different areas of the facilities. Install fingerprint and/or other biometric controlled access with my solid knowledge of electronics.

May 2008 to Jan 2012

Medical Electronics repair Dept. Manager of home care business unit
My responsibilities as the dept. manager include supervising service technicians and making sure that service recalls are maintained at 0% due to the nature of services provided. This is a highly responsible position and does not allow for any error. Provide services for sleep apnea patients and ventilators for life support devices and patient monitors. In addition, my dept. maintains oxygen concentrator devices for COPD patients. Amongst other responsibilities, on call service support 24/7 duty for emergency services when needed.

Self employed · Chania, Greece

July 05 to April 2008

Sole proprietor
Support for all types of security related equipment and telephone PBX systems, installation and programming. Mainly Panasonic Devices. Repair of hard to find switching power supplies.

Denon & Marantz Professional · www.d-mpro.com · 1100 Maplewood Drive, Itasca, IL. USA

July 03 to Feb 05

Senior Electronics Technician
My responsibilities as a senior electronics technician included inspecting and performing quality assurance tests on service center returned goods, troubleshooting to the component level and providing telephone as well as written support on technical or operating issues. Additionally, I documented and reported service center issues and assisted upper management with administrative issues. I also maintained inventory of all spare parts, supplies and calibration equipment for the service department & warehouse.

ServiceWide Technologies · www.servicewidetech.com · 972 Pembridge Place, Sugar Grove, IL USA · 630-969-7333

July 1998 to January 2005

Part time Senior electronics technician
Perform component level repairs and all types of electronics equipment.

Superscope Technologies/Marantz Professional Inc. · www.superscopetechnologies.com · 1508 Batavia Avenue, Geneva, IL. 60134 USA

Jan 02 to July 03

Lead Service Technician
As a Lead service technician I was responsible for performing technical repairs on professional audio equipment and providing service support to authorized service vendors throughout the Americas. Additionally, I was responsible for supervising and coordinating workloads for the warehouse and technical staff.

Mar 98 to Dec 02

Technical Support Representative/Service Technician

My primary duties included providing technical assistance via telephone and/or written communication. Additional responsibilities consisted of conducting incoming quality control, new product evaluation as well as performing technical repairs on defective products. Suggesting modifications for improving product reliability and also developed skill by working with the Audio Precision One & Two.
